

Terms of Use

These terms of use have been put into place to protect our members. Please respect your fellow members and review and abide by these terms. Violation of these terms is grounds for termination of your content license without notice or refund of any payments made.

What you CAN do with ListMagnets.com content:

1. You can add the articles or content to an ebook or product that you plan to sell or give away for individual use.
2. You can modify the content (by removing, adding or otherwise editing wording) to suit your needs.
3. You can use the content in your websites, blogs, newsletters or anywhere you publish content.
4. You can distribute the content as a viral report.
5. You can bundle the content into a free ebook, product or bonus for your customers.
6. You can add your affiliate links, product links, AdSense and other ad code.
7. You can add your name as the author of this PLR content.
8. You can give the articles to your affiliates to publish with the express purpose of promoting your product. Although, you may alter the articles before you give them to your affiliates, they are not permitted to further alter the articles or give publishing rights to anyone else.

And with all the things that you can do with the content, we have to outline...

What you CANNOT do with ListMagnets.com content:

1. You cannot list ListMagnets.com, Alice Seba or anyone connected with our company as the author of this content.

Why? This is private label rights content and we are offering the content without labels or branding.

2. You cannot sell the original resell rights or give away the content and/or rights for other webmasters, business owners or individuals to use. The only exception is noted in #8 above.

For Example: You cannot sell this content as PLR for others to use.
Why? Again to protect our members, if members started selling or giving away the resell rights the mom market would soon become overcrowded. In this case, no one would win.

No Warrantees:

We are unable to provide any warrantees on the accuracy of the content provided. Although we strive to make content as accurate as possible, topics are subject to open, change over time and it is each member's responsibility to verify the accuracy of the information.
